# Languages

### French

Native language

# **English**

Fluent, C1 Level (CEFR), TOEIC 955/990

# Spanish

Basic command

### Interests

Running

### Computing

Space

# **Diplomas**

# Computer Science Engineering Student at Polytech school (Lyon, France)

2017 - Today

Polytech Lyon, 4th year of study

# **Bachelor's Degree in Computer Science and Mathematics**

2015 - 2017

Université Grenoble Alpes

# **Professional Experiences**

### **McMaster University & TOTAL**

TOTAL is a French petroleum company. McMaster is a university located in Hamilton, Canada.

September 2018 to January 2019 - 5 months

Reasearch internship the Mathematical Optimization. The goal was to handle the formulation of a mathematical model on an oil refinery in order to manage the uncertainty of shutting down machines for different duration.

- Wrote a multiperiod model,
- Understand how mathematical optimizers work,
- Contributed to a scientific journal,
- Implemented GUI with PHP

### **STMicroelectronics Crolles**

A manufacturer of semiconductors

July and August 2017 – 2 months

Temporary job as operator in clean-room

Maintained machines in the Lithography area

June 2016 – 1 month

Internship at a company as a developer assistant

Designed an application in C#
